Description

A two-tower colourful play equipment with two slides, a movable bridge with 4 round platforms, an entrance gangway, a ladder and 3 entrance steps. The design takes its inspiration from the shape of a snail. A high-performance, weather-resistant welded stainless steel construction (no clamps used). The posts are finished with spherical decorative elements so that the appliance resembles snail horns. The walls of the slide, the tower's roof and balustrades are made of HDPE board. The floor is made of an HPL panel with an anti-slip texture, which ensures safe use and prevents it from heating in the sun and freezing easily in winter. The playground set complies with EN 1176 norm.

Colourful playground sets dedicated to young kids.

* All stainless steel Limako products are available in galvanized and powder painted version.

Playground device consists of

- 8 x construction pipes (including 4 bent ones), finished with spherical decorative elements that resemble snail antennae
- 2 x towers with an openwork arched roof
- 2 x square platforms with anti-slip texture
- 2 x slides with stainless steel handrails and sides finished with an HDPE board
- 1 x bridge connecting two towers with 4 round platforms with anti-slip texture, suspended on chains
- 1 x entrance gangway with round grips, a rope and 2 handrails made of arched stainless steel pipes
- 1 x ladder in the form of a spiral

- 1 x diagonal climbing wall with holes
- 1 x entrance stairs with a handrail made of curved stainless steel pipe (3 posts of different heights finished with colourful round caps)

Product details

- Dimensions: 6,18 x 3,94 x 2,8 m
- Safety area: 7,94 x 9,18 m
- Free fall height: 0,9 m
- The height of the platform: 0,9 m
- Age: above 3 years
- Number of users: 10
- A certificate confirming compatibility with norm EN 1176

Materials

- Structure and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304
- Pipe diameter 76.1 x 2.0mm (including two bent pipes), 33.7 x 2.0mm and 25.0 x 2.0mm
- Profiles: 40 x 40 x 2.0 mm
- 10mm thick HPL platform with non-slip texture
- The sides of the slide, tower and balustrades are made of 15 mm thick, 3 layers coloured HDPE plastic
