Description

The MOVILO 3 playset is a modern climbing hexagon with a horizontal net, designed to encourage children to stay active and develop their physical fitness. The structure combines various elements for climbing, pull-ups, and coordination exercises, such as rope ladders, climbing walls, nets, and gymnastic handles. This allows children to build strength, balance, and agility through safe and engaging play. The solid steel construction ensures durability and resistance to both heavy use and changing weather conditions. With its modern design and universal form, the set is a perfect fit for playgrounds, parks, schools, and recreational areas. It is the ideal solution for combining physical activity with the joy of outdoor fun!

The MOVILO 3 playset features a hexagonal structure made of S235 steel, protected by hot-dip galvanizing and powder coating. The structural posts are crafted from 70 × 70 mm square profiles with a wall thickness of 2 mm. The rope elements are made of 16 mm diameter polypropylene ropes with a steel core (reinforced), ensuring high strength and resistance to stretching. The climbing rope is also made of Ø16 mm polypropylene with a steel core. The climbing wall and climbing holds are made of durable HDPE plastic. The rungs of the hanging ladder and the gymnastic handles are made of polypropylene, providing both durability and comfort of use.

Playground device consists of

- 6 structural posts
- 1 element with two bars

- 2 climbing panels
- 1 hanging ladder
- 1 vertical ladder
- 1 bar with two gymnastic handles on chains
- 1 bar with a climbing rope
- 1 horizontal net (spider net)

Product details

- Dimensions (LxWxH): 2,85 x 2,47 x 1,65 m
- Safety area (LxW): 6 x 5,63 m
- Free fall height: 1,65 m
- Age group: 3+
- Number of users: 9
- Differences in dimensions no more than +/- 5% are acceptable

Materials

- Construction made of S235 steel hot-dip galvanized and powder-coated
- Structural posts square profile 70 x 70 mm with a wall thickness of 2 mm
- Ropes 16 mm polypropylene with steel core (reinforced)
- Climbing wall and holds Made of HDPE plastic
- Hanging ladder rungs and gymnastic handles made of polypropylene
- Climbing rope 16 mm polypropylene with steel core (reinforced).
