Description

The Sablero lockable sandbox is an aesthetic and functional solution, designed with safety and comfort of use in mind. Decorative plant-inspired milling on the side panels and floral motifs on the covers give it a friendly, natural character, allowing it to blend perfectly into modern playground environments. The sliding covers effectively protect the sand from contamination while remaining convenient and intuitive for everyday use. The structure is made of S235 steel, hot-dip galvanized and powder-coated, with posts featuring a 70 × 70 mm profile and a wall thickness of 2 mm. The sandbox panels and covers are made of durable HDPE material, with the covers mounted on a solid steel frame. The entire design combines durability, aesthetics, and practical solutions, making it ideal for intensive use.

Playground device consists of

- sandbox with plant-inspired milling
- sliding covers with floral milling

Product details

- Dimensions (LxWxH): 3,23 x 1,57 x 0,34 m
- Safety area (LxW): 6,23 x 5,57 m
- Free fall height: 0,34 m
- Age group: 1-6
- Number of users: 5
- Differences in dimensions no more than +/- 5% are acceptable

Materials

- Construction made of S235 steel, galvanized and powder-coated,
- Structural posts with a 70 × 70 mm profile, wall thickness 2 mm,
- Sandbox panels made of HDPE plastic.
- Sandbox covers (sliding) made of HDPE mounted on a steel frame.
